Tentative Schedule

The following is a ***tentative*** schedule for the course. This is subject to change, and major changes will be announced in lecture if they happen.
Textbooks: Active Prelude to Calculus ("P"); Active Calculus ("A"); Active Calculus Multivariable ("M")

Week of...	**Monday**	**Tuesday**	**Wednesday**	**Thursday**	**Friday**
September 15	Introduction & Syllabus (Section 1.1)	—	Models and Functions; Rates of Change (Sections 1.1 – 1.3 (P))	"Quiz"	Linear Functions, Quadratic Functions, Compositions (Sections 1.4 – 1.6 (P))
September 22	Transforming and Combining Functions (Sections 1.8 – 1.9 (P))	—	Functions of Several Variables (Section 9.1 (M))	Quiz	Velocity and Limits (Sections 1.1 – 1.2, 1.7 (A))
September 29	The Derivative at a Point, Interpretations (Sections 1.3, 1.5 (A))	—	Derivative Function and Interpretations (Sections 1.4 – 1.6 (A))	Quiz	Second Derivative, Differentiable Functions, Limits Revisited (Sections 1.6 – 1.7 (A))
October 6	Derivative Rules (Sections 2.1, 2.3 (A))	—	Partial Derivatives (Section 10.2 (M))	Quiz	Tangent Line Approximation, Newton's Method (Section 1.8 (A))
October 13	Chain Rule (Section 2.5 (A))	—	*Exam #1 Review*	**Exam #1**	Implicit Functions, Related Rates (Section 2.7, 3.1 (A))
October 20	Exponential Functions, Derivative of exp(x) (Sections 3.1 – 3.3 (P) & Section 2.1 (A))	—	**Fall Institute (No Classes)**	Quiz	Logarithms; Properties, Applications & Derivatives (Sections 3.4 – 3.5 (P))
October 27	Trigonometric Functions and Derivatives (Sections 3.1 – 3.3 (P) & Section 2.1–2.2 (A))	—	Inverse Functions, More Logarithmic Derivatives (Section 2.6 (A))	Quiz	Extrema and Graphs of Functions (Section 3.3 (A))
November 3	Optimization and Applications (Sections 3.5 – 3.6 (A))	—	Optimization of Multivariable Functions (Section 10.7 (M))	**Exam #2**	Antiderivatives, Differential Equations (Sections 4.1, 4.4, 7.1 (A))
November 10	Riemann Sums, Definite Integrals (Sections 4.2 – 4.3 (A))	—	The Fundamental Theorem of Calculus (Section 4.4 (A))	Quiz	Substitution (Section 5.3 (A))
November 17	Double and Iterated Integrals (Sections 11.1 – 11.2 (M))	—	**Reading Day**	**Reading Day**	—
